Core Values / Mission

The Madison County Department of Emergency Medical Services is committed to providing outstanding emergency medical care to the residents and visitors of our community. During every type of emergency, our advanced care providers attempt to treat and prevent illness, disability, and loss of life. To accomplish our mission we strive to:

- collaborate with and supplement the efforts of the community volunteer fire and rescue agencies;
- constantly improve our capabilities through rigorous, routine training, while pursuing innovations in equipment, techniques and methods, exceeding the highest professional standards;
- maintain a community presence through public education initiatives to facilitate injury and illness prevention;
- practice effective resource management to ensure primary availability of staff and equipment to the community while also providing aide to neighboring counties in times of need;

Our dedicated, caring, and professional team of pre-hospital providers strives to meet the changing needs of the community by providing the highest quality emergency medical services.
